THE SCOTCH LABOR TROUBLE

Strikers Still Hold Their Own with Little Chance of a Settlement.

[BY CABLE TO THE HERALD.]

LONDON, Jan. 12, 1891 .- A despatch was sent to Mr. Gladstone to-day in regard to Mr. Parnoll's statement in his Limerick speech that Mr. M'Carthy communicated to the ex-Premier the substance of Parnell's manifesto before it was published. In reply to this Mr. Gladstone telegraphs as fol-

Mr. M'Carthy authorizes a denial of the report that serious differences arose at the Boulogne con-M'Carthyites demanded Mr. O'Brien's unqualified support of their leader and O'Brien repelled their demand, thus leaving a loophole for Parnell's return, is a pure invention.

Mr. Thomas P. Gill, M. P., who was one of the delegates who visited the United States in company with Measrs. Dillon and O'Brien and the other envoys of the Irish Parliamentary party, and who returned to Paris with Mr. O'Brien, returned to Loudon from France to-day.

It is stated that the government has ordered the Irish County Police Inspectors to furnish returns of the branches of the National League throughout Ireland, stating in each case whether the branch supports or opposes Mr. Parnell.

Dr. Charles K. D. Tanner, M. P., has written a letter to Mr. Parnell, in which he notifies him that he will bring suit against him for damages, basing his claim on the alleged libelious language attributed to Mr. Parnell when referring to Dr. Tanner during the course of speeches made by Mr. Parnell while recently campaigning in North Kilkenny.

In the utterances Dr. Tanner complains of Mry Parnell is said to have reflected upon the former's ability as a physician.

NO DISSENSIONS AMONG LIBERALS. The Right Hon, Sir William Vernon Harcourt, Q. C., member of Parliament for Derby, has written a

letter for publication, in which he says that the reports published in the tory newspapers as to dissensions existing among the leaders of the liberal party are not based on fact. He says that the liberals need feel no unessiness, as Mr. Gladstone's colleagues continue to act with confidence in their chief and in cordial co-operation with each other. The unionists' reliance, he says, is based upon three hopes—that Mr. Gladstone will soon die, that he will immediately retire and that his colleagues will desert him. But their expectance will be disappointed. Mr. Gladstone was never in better health, he has no thought of retiring and his colleagues and party were never more resolved to

A NEW WORD FROM MR. GLADSTONE. Sr. Louis, Jan. 12, 1891.—During the heat of the trish elections in December last, Dr. P. S. O'Reilly, of this city, addressed a letter of encouragement to Right Hon. ar. Richard J. Gladstone, dated Hawarden, December 4. Speaking for his father the young man says:—

"It is most satisfactory to know that the opinions of a large majority of leading frishmen in St. Louis remaintance to the policy which nearly five years ago joined frish nationalists and Haggish liberals in a firm and, we trust, a lasting friendship. You recognize that on our part we have been in every particular, large and small, ablidingly true to the proposals of 1886. In Heaven's name why should the divorce court be allowed to compromise the focure of Ireland? British Ilberals have sacrificed much for Ireland during the past five years. They have refused to give precedence to any British question until Ireland has recoved home rule. All of a sudden Mr. Paralell turns his back upon us, ignores his own speeches and declares that we are guilty of treachery to Ireland. Can anything be were preposterous? He himself, if the charge be sue, has been a leading agent in the treachery.

"We who have been true to Ireland mean to be true to ourselves in order to carry through a great national settlement of the home rule question. Silkenny has spoken decisively, and I have no leads that Ireland will adhere to the solemn yledges which her representatives gave us in 1888."

the passport regulations being so strictly enforced at that port. Consequently, the prisoner says, he returned to Olot because he thought he would be safer there owing to the absence of rail-

way communication with that town. Padlewski declares that the killing of General Seliverstoff was not a crime, "not a criminal mur der," but a political act. He claims that he was betrayed to the police by a customs officer, who represented himself as being a member of a secret society. The prisoner is perfectly calm and col-

During the course of an interview at Olot Padlowski described the journey from Dijon. He says that he entered Spain through Cebreros and from there went to Barcelona. Padlowski added that he remained a week in Barcelona, keeping himself in close hiding, and from that city he went to Saragossa and Madrid. He seems to have stopped but a few hours in this city, and fearing detection he returned to Saragossa. From the latter city, according to Padlewski, he went to Carthagena and Alicante, finally settling down at Olot.

Padlewski also said that his health was shattered by the continual fear of pursuit which he experienced. He would not say who accompanied him to Dijon, but upon other subjects he was willing to talk without reserve.

Referring to General Seliverstoff Padlewski said that the General was a tyrant who had caused twenty-five hundred Poles to be sent to Siberia. and that in killing the Russian secret police agent he had only avenged his family, his countrymen and his coreligionists.

The newspaper man who interviewed Padlewski was convinced that the latter is the man for whom the police have been hunting. In conversation Padlewski inspires the person who talks with him with a sentiment of sympathy instead of repulsion. He is gentle and refined in manner and appears to have been impelled to commit the crime with which he is charged by patriotic exaltation and revolutionary sentiment combined.

THE SCOTCH STRIKE.

SOME MEN ACCEPT THE TERMS, BUT THE SITUA-TION IS NOT IMPROVED.

INV CABLE TO THE HERALD ! Grasgow, Jan. 12, 1891, -Another week of the railroad strike has commenced with no material change in the situation. During the past few days there have been several minor accidents on the railroads, and though they do not seem to be due to the inexperience of the new hands employed in place of the strikers the latter will make capital out of them. The Caledonian Railroad is now fully manned with new men.

The centres of the disaffection are at Edinburgh, Perth, Aberdeen, Sterling and Dundee. At Mother, well, Hamilton and Polmodie, where the men have been slowly reinstated upon accepting the terms of the railroad companies, the strikers are giving the greatest trouble. At Motherwell a few of the new hands, thanks to the activity of the strikers' pickets, have deserted the railroad company employing them and are now counted in the ranks of the strikers. The railroad officials intend, it is announced to-day, to make a temporary reduction of the passenger service so as to enable them to overtake the goods service.

The position of the North British Railroad is still very bad, and it seems more than probable that this road will lose a considerable portion of its traffic and that the Caledonian road will be the

United States. The letter was written in consequence of a number of communications sent to the Vatican regarding the famous educational discourse of Bishop Ireland. The Pope, consquently, instructed Cardinal Rampella, the Papal Secretary of State, to obtain the opinion of Cardinal Gibbons upon the subject. The Pope reserves a personal order to prove the truth or falsity of Mr. Parnell's examination of the question. A secret consistory will probably he held on February 9, and a public consistory may follow on February 12. Cardinal Vanutelli comes to the second consistory to receive his cardinal's hat.

The Pope has preconized the Bishops of Strasburg. Posen and Fribourg. > HE CRITICISES THE GERMAN EAST AFRICAN AB-BANGEMENTS.

> [BY CABLE TO THE HERALD.] BERLIN, Jan. 12, 1891.—In the latest Bismarck interview, accorded to Herr Max Bewer, a German journalist, the ex-Chancellor, after speaking of his early education and declaring that the philof Spinoza influenced him more than that of Hegel, told Herr Bewer how he gradually became a lawyer, enjoyed himself as a student at the beer tables and on the fencing floor, and declared that he had unlimited confidence in Baron Wissmann, who, he said, never caused Germany any difficulties.

> The Prince thought that Emin Pacha was, perhaps, a more clever man than Baron Wissmann but, he added, he lacks the animal energy necessary for dealing with African matters. Prince Bismarck referred to Zanzibar as "fruit that would have fallen ripe into our lap had England ever needed our diplomatic assistance. Zanzibar, with its bankers, excellent barbor and civilization, cannot be replaced by Bagamoyo. The Czar failed to make a Königsberg of Libau, nor was Denmark able to make a Hamburg of Glückstadt."

THE NEWFOUNDLAND QUESTION.

SIE CHARLES DILES THINKS THE COLONY WILL TARR THE LAW IN THEIR OWN HANDS.

[BY CABLE TO THE HEBALD.] Paris, Jan. 12, 1881.—Sir Charles Dilke, who is at present residing in this city, in an interview to-day, published by L^*Edair in regard to Newfoundland matters, says that he thought that apart from the lobster question the great difficulty lay in the impossibility to reconcile French treaty rights with the developments of Newfoundland. The entire territory belonged to the colony, yet they could not exercise the rights of sovereignty. The colonists, he said, unable to obtain a settlement of the matters in dispute, would isome day certainly take the law in their own hands.

During the coming spring, according to Sir Charles Dilke, shots would probably be exchanged between the crows of the French ships and the colonists. It was essential, therefore, to immediately discover ground for an agreement.

Baron Lareinty, of the Senate, during the course of an interview, stated that he had learned from M. Ribot, the Minister of Foreign Affairs, that the French government had decided to accept territorial compensation only for the cession to Great Britain of the French shore of Newfoundland. M. Ribot refused to discuss the question of pecuniary indemnity and said that England had not offered France any territorial compensation for her rights on the Newfoundland coast.

AN ULTIMATUM. M. Ribot, Minister of Foreign Affairs, has informed Lord Lytton, the British Ambassador, that France will not accept any compensation for her fishery rights in Newfoundland that she does not consider to be their full equivalent. Nothing of that nature had yet been offered her. It was for England to say what she can give. Money would

Frankfort's trade with America for the same period shows an increase of \$27,291.

The United States Minister, the Hon. William Walter Phelps, as soon as the consular figures were received, sent them to the Foreign Office and called attention to the gratifying aspect of affairs. Mr. Phelps said that he thought German exporters would be greatly relieved upon reading the returns, and hoped that their publication would tend to counteract their fears and remove the discouragement manufacturers and importers anticipated through the working of the McKinley

FARWELL'S PROBABLE SUCCESSOR.

DAVID HUNTER THE CHOICE OF THE FARMERS IN THE ILLINOIS LEGISLATURE.

BY TELEGRAPH TO THE HEBALD.] SPRINGFIELD, III., Jan. 12, 1891 .- If the present political situation holds out for ten days the United States Senator is as good as elected. But, although a republican, his name is not Farwell. David Hunter, a farmer republican, member of the Lower House from Winnebago county, in the northern part of the State, is now the accepted choice of the three Farmers' Alliance men, and they declare their intention of voting for him. It is also said the republicans will not hold a Senatorial cancus at all, but will vote for Hunter in a body, thus insuring an election, provided he votes for himself.

in a body, thus insuring an election, provided he votes for himself.

Hunter is a queer old fellow, independent and outspoken, and although this is his second term in the Legislature he has steadfastly refused all offers of favors from the railrosds and pays his way wherever he goes. Being pretty well off and rarely journeling anywhere save to and from the State capital, he can afford to pay his travelling expenses and still be a trifle altead. He was the republican caucus nomines for Speaker last Tuesday, and is regarded as a level headed, conscientious man. He is also a calf raising, butters making agriculturist, and has been for years, so that it can't be said he is a farmer for political purposes only.

The strange feature of the present situation is that the republicans have no Senatorial candidate, Mr. Farwell having put himself forward and being his own candidate. Under no circumstances would the Farmers' Alliance vote for him. Hunter is something over fifty years of age. The Alliance men now say they won't vote for either Palmer or Ogiesby.

The report will be made to-morrow morning. It will recommend that the democratic and republican houses appoint a joint committee to arrange for the two houses getting together and acting with the Senate in passing laws. Republicans generally favor any plan that will bring this about. The democratic members from Silver Bow show a disposition to refuse to comply with any compromise: acting under advice of party leaders of that county they say they will fight any scheme looking to leaving them out of the House. There are three contestants for seats held by republicans, and if all are successful the Alliance will have ninety-five members in the lower house. Besides the Alliance Congressmen-elect, there are here a number of prominent women who are urging the Alliance members of the Legislature to unite and stand firmly together, and to allow no other influence of any character to swerve them from their chief purpose, the defeat of Mr. Ingalls. But as there are a dozen or more strong Alliance candidates for Mr. Ingalls place it is quite an undertaking to keep the forces in line. It abounds in lurid scenes and effective situations, upon which it relies for its success rather than upon its dialogue, which is none of the best.

In the second act a number of good specialties were introduced.

The play was well staged and the mechanical devices effective. The author is a modest roung New Yorker, and "An Irishman's Love" is his first attempt at playwriting.

orchestra seats for a dollar and a half in front of orchestra seats for a dollar and a hair in front of the Metropolitan Opera House last evening to induce the public to attend the second performance of "Diana of Solange," by Ernst II.

During the first act the boxes were nearly all empty, but after the second raise of the curtain the house was comfortably filled, the knowing ones having doubtless been attracted by the beautiful floral ballet.

At the end of the fourth act Pauline Scholler as Diana, Conrad Behrens as Fuegos and Andreas Dispel as Armand received an encore for their trio.
